1

Kim Greene - Introduction

- Owner of Kim Greene Consulting, Inc.
- Extensive iSeries background
- Services offered include:
 - System and application performance optimization
 - Administration
 - Upgrades
 - Troubleshooting
 - Health, performance, security, etc. checks
 - Migrations
 - Custom development
 - Enterprise integration
- Technical writer for Systems Magazine, IBM i Edition
- Blog: www.bleedyellow.com/blogs/dominodiva
- Twitter: [iSeriesDomino](#)

Copyright Kim Greene Consulting, Inc. All rights reserved worldwide.

2

Amy Hoerle - Introduction

- 1st “real” job was as an AS/400 administrator in 1997
- Worked on IBM Lotus Domino support team for 11 ½ years
- Specializing in Lotus products on IBM i & Windows since 1999
 - Installing, configuring, tuning, debugging and troubleshooting
- DAOS expert
- Xpages development
- Author of numerous technotes, articles and the “Optimizing Domino Administration” IBM Redbooks Wiki
- Blog: www.bleedyellow.com/blogs/ilotusdomino
- Twitter: [iLotusDomino](https://twitter.com/iLotusDomino)

What’s New in 8.5.x?

- A look into the new features for:
 - End User Perspective
 - Client Management
 - Server Enhancements
 - Traveler Enhancements
 - Designer Enhancements
 - 8.5.3 Upgrade Pack 1
- A peek into the future

End User Perspective

5

KIM GREENE
CONSULTING, INC.

New Mail Notification Summary

- Get a small summary window when new mail arrives
- Can easily be seen when working in other applications
- Can be moved anywhere on your screen (even outside the Lotus Notes client)

Requires 8.5.3 mail template to prevent popups for newly saved documents.

Copyright Kim Greene Consulting, Inc. All rights reserved worldwide.

6

KIM GREENE CONSULTING, INC.

Mail Sorting Improvement

- Two sorting improvements
 - Subject prefixes (Re: and Fwd:) ignored
 - Maintain selection in sorted view

Copyright Kim Greene Consulting, Inc. All rights reserved worldwide. 7

KIM GREENE CONSULTING, INC.

Unread Mark Settings

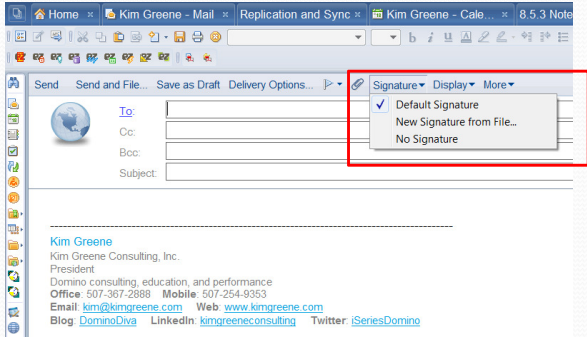

- Mail preferences indicate color of unread marks

Copyright Kim Greene Consulting, Inc. All rights reserved worldwide. 8

KIM GREENE CONSULTING, INC.

Signature Options

- Users can select which signature to use when sending emails
 - Choose from: Text, HTML, GIF, JPEG or bitmap file

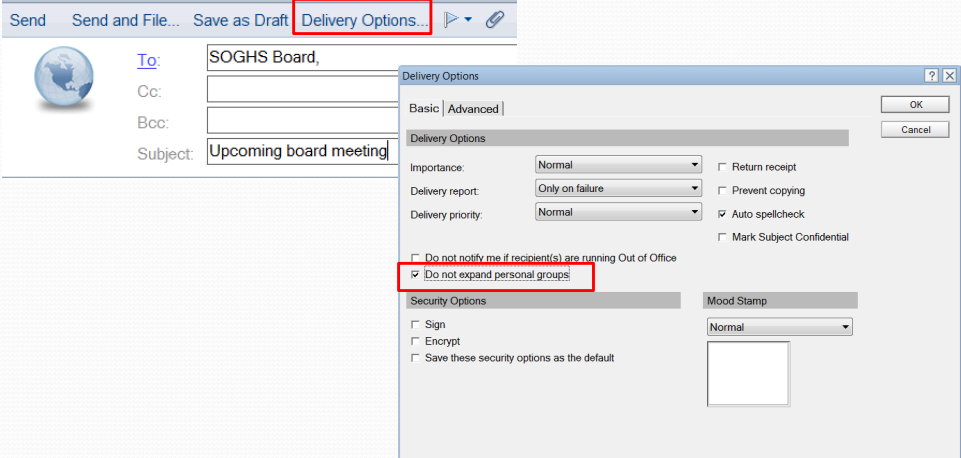

Copyright Kim Greene Consulting, Inc. All rights reserved worldwide. 9

KIM GREENE CONSULTING, INC.

Mail Delivery Control

- New option to prevent personal groups from being expanded

Copyright Kim Greene Consulting, Inc. All rights reserved worldwide. 10

KIM GREENE CONSULTING, INC.

Calendar Changes

- Duplicate calendar entry preference

The screenshot shows the Outlook Preferences dialog box, specifically the 'Calendar and To Do' section. The 'Views' tab is selected. Under 'Calendar Views', the checkbox 'Always take action on my entry when I take action on a combined calendar entry' is checked and highlighted with a red box. Other visible settings include 'Start of work day' at 08:00 AM, 'End of work day' at 05:00 PM, and 'Each time slot' set to 60 minutes. The 'Days in work week' section shows checkboxes for Sunday, Monday, Tuesday, Wednesday, Thursday, and Friday, with Monday through Friday checked.

Copyright Kim Greene Consulting, Inc. All rights reserved worldwide. 11

KIM GREENE CONSULTING, INC.

Calendar Changes

- Ability to hold original meeting timeslot when rescheduling a meeting

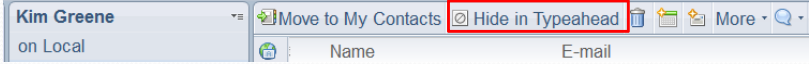

The screenshot shows the Outlook Preferences dialog box, specifically the 'Calendar and To Do' section. The 'Views' tab is selected. Under 'Calendar Views', the checkbox 'By default, leave a placeholder for countered meetings' is checked and highlighted with a red box. Other visible settings include 'Start of work day' at 08:00 AM, 'End of work day' at 05:00 PM, and 'Each time slot' set to 60 minutes. The 'Days in work week' section shows checkboxes for Sunday, Monday, Tuesday, Wednesday, Thursday, and Friday, with Monday through Friday checked.

Copyright Kim Greene Consulting, Inc. All rights reserved worldwide. 12

KIM GREENE CONSULTING, INC.

Better Contacts Controls & Sametime Update

- Hide in typeahead option now available

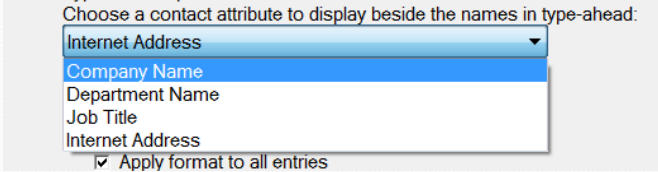

- Better than deleting a recent contact
 - Won't be added back in later
- Integrated Sametime
 - Lotus Notes 8.5.3 embeds the Sametime Connect client version 8.5.1

Copyright Kim Greene Consulting, Inc. All rights reserved worldwide. 13

KIM GREENE CONSULTING, INC.

Better Contacts Controls

- Help with duplicate contacts
 - Can select contact attribute to be displayed when choosing name

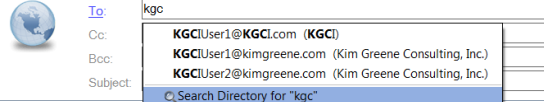

Choose a contact attribute to display beside the names in type-ahead:

- Internet Address
- Company Name
- Department Name
- Job Title
- Internet Address

Apply format to all entries

Client Management

KIM GREENE
CONSULTING, INC.

Managed Mail Replicas

8.5.2

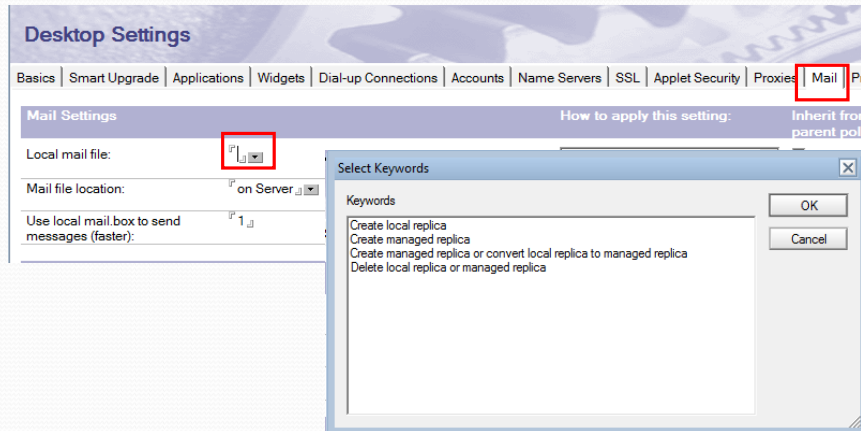

- Improvement on local mail replicas
 - Notes client does the work
 - Creates, populates, synchronizes managed replica
 - Automatic correction for corruption
 - Notes client runs fixup
 - Notes client can delete and recreate local replica
 - User seamlessly redirected to server replica
 - Control space usage
 - Truncation of large documents until retrieved by user
 - Limits # of days of mail replicated locally
- See tech note [#21437957](#)

Copyright Kim Greene Consulting, Inc. All rights reserved worldwide.

16

Managed Replicas

- Deploy through policy via desktop settings document

Managed Replicas

- *Create local replica*
 - Creates a local (non-managed) replica of the user's mail file
- *Create managed replica*
 - Creates a new managed replica of the user's mail file
 - Leaves existing local replica unconverted
- *Create managed replica or convert local replica to managed replica*
 - Converts the user's existing local mail replica to a managed mail replica
 - Or creates new managed mail replica
- *Delete local replica or managed replica*
 - Deletes any local managed or non-managed mail replica

KIM GREENE CONSULTING, INC.

Managed Replicas

- Selective replica option provides additional field

Managed Replica Settings	Managed Replica Settings
Keep full document for most recent: <input type="text" value="30"/> days	Keep full document for most recent: <input type="text" value="30"/> days
Selective replica: <input type="checkbox"/> Yes	Selective replica: <input checked="" type="checkbox"/> Yes
Amount of free space required before cache is created: <input type="text" value="0"/> Mb	Remove documents not modified in last (days): <input type="text" value="0"/> days
Amount of rich text to retrieve on truncated documents: <input type="text" value="0"/> Kb	Amount of free space required before cache is created: <input type="text" value="0"/> Mb
Amount of attachment data to retrieve on truncated documents: <input type="text" value="0"/> Kb	Amount of rich text to retrieve on truncated documents: <input type="text" value="0"/> Kb
	Amount of attachment data to retrieve on truncated documents: <input type="text" value="0"/> Kb

Copyright Kim Greene Consulting, Inc. All rights reserved worldwide. 19

KIM GREENE CONSULTING, INC.

Managed Replicas

- Don't forget about client settings
 - These settings also interact with user's local non-mail replicas

Client Settings
Auto-retrieve document setting: <input type="text" value="Disable"/> ▾
Enable server to poll for new mail and trigger replication on notification of new mail: <input type="text" value="Enable"/> ▾
Enable silent failover when a server goes down: <input type="text" value="Enable"/> ▾
Enable upgrade of all local NSF's to latest ODS version: <input type="text" value="Disable"/> ▾

Copyright Kim Greene Consulting, Inc. All rights reserved worldwide. 20

ODS Upgrade of Local Databases

- Force Notes client to upgrade ODS of local databases
 - Essential databases done on Notes client startup
 - Non-essential (most) databases upgraded in background
- Deploy through policy via desktop settings document
 - Mail tab
 - “Enable upgrade of all local NSF’s to latest ODS version”
 - Requires Domino Directory to be at 8.5.2
- See tech note [#1429889](#)

Client Upgrade Enhancements

- Smart Upgrade RunAs
 - Now works with Windows 7 & Vista
- New MUMA tool
 - Multi-User Migration Assistant
 - Switch single user to multi-user installation
 - Works with 6.5.x, 7.x, and 8.x client installations
 - Works for both Notes basic and standard configurations

Server Enhancements

Adminp, Calendars & Renames

- Adminp improvement for renames
 - User renames performed in all user's mail files
 - Works with custom applications too
 - Renames occur in more places
 - Database ACLs
 - Calendar profiles
 - C&S documents
 - No longer dependent on advanced ACL setting "Modify all Names fields"
 - Tips:
 - Requires mail servers to be at 8.5.3
 - Don't forget to upgrade design of admin4.nsf

KIM GREENE
CONSULTING, INC.

Full Text Index Directory

- Option to move full text indexes to different storage
- Enable with notes.ini parameter
 - FTBasePath=
 - To migrate full text indexes to a separate disk:
 - Set notes.ini FTBasePath=
 - Run updall -f to rebuild all full text indexes
 - Automatically deletes old full text indexes and re-creates on new drive

Copyright Kim Greene Consulting, Inc. All rights reserved worldwide. 25

KIM GREENE
CONSULTING, INC.

Purge Interval Replication Control (PIRC)

- Way to prevent old deleted documents from being recreated if replication is disabled for a long period of time
- Affects many areas of Domino
 - Replication
 - Database Properties
 - Compact
 - Fixup
 - "Show directory" console command
 - DDM

Copyright Kim Greene Consulting, Inc. All rights reserved worldwide. 26

KIM GREENE CONSULTING, INC.

How PIRC Works

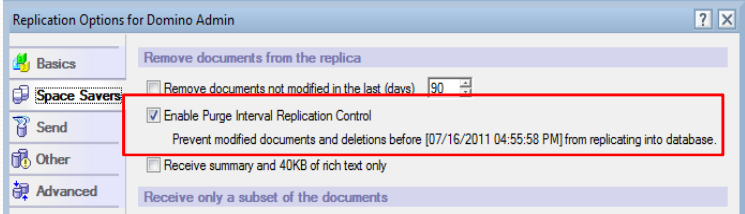

- Method 1 – “since time” used by replicator
 - 8.5.3 PIRC aware servers use later of these two:
 - PIRC date
 - “Since time” contained in replication history
- Method 2 - compare document SequenceTime to PIRC date
 - If SequenceTime older than PIRC date = no replication
 - Skipped documents logged in DDM

Copyright Kim Greene Consulting, Inc. All rights reserved worldwide. 27

KIM GREENE CONSULTING, INC.

Enabling PIRC

- PIRC can be enabled via the database properties or with the compact command
 - Database Property (Replication settings)

- Load compact *database* –pirc on
Informational, PIRC has been enabled for database mail/dadmin.nsf.

Copyright Kim Greene Consulting, Inc. All rights reserved worldwide. 28

KIM GREENE
CONSULTING, INC.

Is PIRC enabled?

- **Show Directory** verifies which databases have PIRC enabled with **-pirconly** parameter

```
[084795:44436:00009-000001E3] > sh dir -pirconly
[084795:44436:00009-000001E3] dbName
Version Log DAOS PIRC ---Modified Time----

```

Copyright Kim Greene Consulting, Inc. All rights reserved worldwide. 29

KIM GREENE
CONSULTING, INC.

PIRC Replication Changes

- What happens when a client or server attempts to replicate in an old document?
 - Document is not allowed to replicate
 - DDM event is generated recording document ids that did not replicate
- Tip:
 - Make sure all documents are replicated in to a database before enabling PIRC

Copyright Kim Greene Consulting, Inc. All rights reserved worldwide. 30

KIM GREENE
CONSULTING, INC.

Overriding PIRC

- Can override PIRC setting on a database
 - Use new replicator switch
 - -NOPIRC
 - Sets replication history “since time” to zero for this one replication
 - Enables full replication between databases being replicated
- Requirements:
 - Administrator of server
 - Need to have create replica authority on the server

Copyright Kim Greene Consulting, Inc. All rights reserved worldwide. 31

KIM GREENE
CONSULTING, INC.

PIRC and Design Element Replication

- What happens when replacing or updating a database design?
 - New Design Modification TimeDate has been added
 - Allows PIRC enabled databases to have their design replicate properly

Copyright Kim Greene Consulting, Inc. All rights reserved worldwide. 32

KIM GREENE
CONSULTING, INC.

DDM PIRC Events

- DDM event created when non-PIRC server tries to replicate in old documents
 - "PIRC Warning: Replicator skipped <x> data document(s) in <database name> from <server name>"
- DDM event when database attempts to push old documents into a PIRC enabled database
 - "PIRC Warning: Replicator skipped <x> data document(s) in <database name> from <server name>"
 - "PIRC Warning: Replicator skipped <x> non-data document(s) in <database name> from <server name>"
- DDM event when –NOPIRC is used
 - "PIRC override for DB <database name>"

Copyright Kim Greene Consulting, Inc. All rights reserved worldwide. 33

KIM GREENE
CONSULTING, INC.

Fixup and PIRC

- Fixup puts UNID of deleted document in special object contained in PIRC enabled database
 - Allows corrupted document to be cleaned up and replicated in from “good” replica of database
 - DDM events related to fixup and PIRC
 - "Warning: Fixup purged corrupt document UNID (:) from <servername>"
 - "Warning: Replication restored document UNID (:) from <servername>"
 - "Warning: Replication did not restore corrupt document, time expired, UNID (:) from <servername>"

Copyright Kim Greene Consulting, Inc. All rights reserved worldwide. 34

PIRC Debug

- `DEBUG_REPL_PIRC=1`
 - Display PIRC date and summary information for documents not allowed to replicate
- `DEBUG_REPL_PIRC=2` or greater
 - Provides details about the documents being blocked by PIRC

Copyright Kim Greene Consulting, Inc. All rights reserved worldwide. 35

PIRC Tips

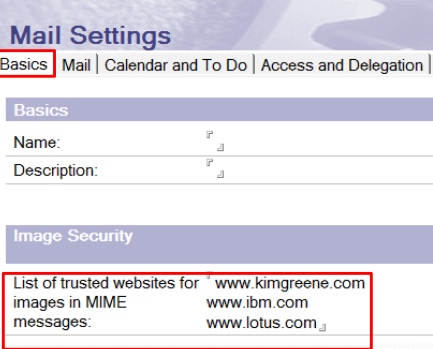

- Remember to PIRC enable all replicas of a database
- To PIRC enable multiple databases:
 - Use Administration client
 - Use indirect file

Copyright Kim Greene Consulting, Inc. All rights reserved worldwide. 36

KIM GREENE CONSULTING, INC.

Mail Policy Enhancement

- Mail settings policy document
 - Control web sites want to trust displaying images in Notes client

The screenshot shows the 'Mail Settings' dialog box with the 'Image Security' section highlighted. The 'List of trusted websites for images in MIME messages' is set to include www.kimgreene.com, www.ibm.com, and www.lotus.com.

Copyright Kim Greene Consulting, Inc. All rights reserved worldwide. 37

KIM GREENE CONSULTING, INC.

File Attachment Controls

- iNotes file attachment whitelist
 - iNotes_WA_Sec_AttachCDWhiteList=
 - Specifies which attachment types are acceptable to download
 - Example:
 - iNotes_WA_Sec_AttachCDWhiteList=jpg,pdf,gif
- Mobile device attachment download control
 - iNotes_WA_MobileReadAttachments=
 - Prevent download of attachments for mobile devices

Copyright Kim Greene Consulting, Inc. All rights reserved worldwide. 38

KIM GREENE
CONSULTING, INC.

New Defaults

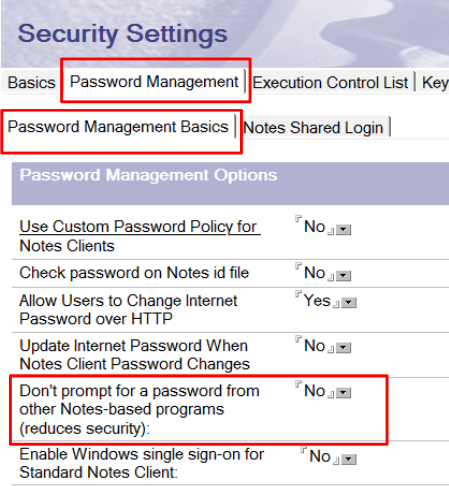

- In 8.5.3 new default values are defined for the following notes.ini settings:
 - DEBUG_THREADID=1
 - CONSOLE_LOG_MAX_KBYTES=10240

Copyright Kim Greene Consulting, Inc. All rights reserved worldwide. 39

KIM GREENE
CONSULTING, INC.

ID Vault Enhancement

- Support added for Notes clients deployed with Citrix ZenApp
- ID vault policy can prevent password prompts from other Notes-based applications
 - Enabled in security policy

The screenshot shows the 'Security Settings' window with the 'Password Management' tab selected. Under 'Password Management Basics', the option 'Don't prompt for a password from other Notes-based programs (reduces security):' is set to 'No' and is highlighted with a red box. Other options include 'Use Custom Password Policy for Notes Clients' (No), 'Check password on Notes id file' (No), 'Allow Users to Change Internet Password over HTTP' (Yes), 'Update Internet Password When Notes Client Password Changes' (No), and 'Enable Windows single sign-on for Standard Notes Client' (No).

Copyright Kim Greene Consulting, Inc. All rights reserved worldwide. 40

KIM GREENE
CONSULTING, INC.

XWork Server

- Based on Utility Server license with restrictions
 - 4 applications
 - 4 .nsfs per application
 - Replication limited to other XWork servers
- Competitively priced offering to leverage XPages technology
- Target audience:
 - BPs
 - ISVs

Copyright Kim Greene Consulting, Inc. All rights reserved worldwide. 41

KIM GREENE
CONSULTING, INC.

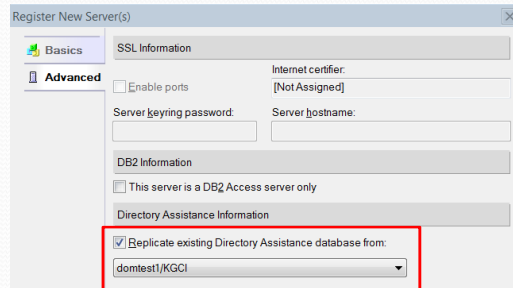

BRMS Save While Active with .nlos

- Domino now allowed access to .nlo files during save while active
- Requires .nlo files to have *ALWCKPRWT attribute set
 - Use CHGATR command to modify .nlo files
 - CHGATR OBJ('/Domino/DAOS/*') ATR(*ALWCKPWRT) VALUE(*YES) SUBTREE(*ALL)
- NOTE: Also in 8.5.2 FP2

Copyright Kim Greene Consulting, Inc. All rights reserved worldwide. 42

Directory Assistance Replica

- New option in 8.5.2 to create replica of Directory Assistance when configuring a new server
 - 8.5.2 failed to create replica
 - Support available now in 8.5.3

CFGDOMSVR Enhancement

- *REMOVE option functionality
 - Now removes DAOS and transaction logs outside the Domino data directory
 - Objects need to be owned by QNOTES

Traveler Enhancements

Apple Traveler Enhancements

- 8.5.3
 - Apple iOS partial wipe of traveler only
 - Group name and Mail-in database lookup
 - Select which applications are allowed to sync to Apple devices
 - Reply and Forward indicators from Apple devices
- 8.5.3.1 & iOS 5
 - Ability to create, rename, move and delete mail from folders
 - Requires AS_ALLOW_DS_FOLDER_CHANGES set to **true** in NTSSConfig.xml
 - Follow up flags

Copyright Kim Greene Consulting, Inc. All rights reserved worldwide.

KIM GREENE
CONSULTING, INC.

Android Traveler Enhancements

- 8.5.3
 - Home Page widgets for mail and calendar
 - Invite, creation, quick switch days/weeks, week view hints
 - Copy/paste & send button when composing messages
 - Android OS 3.x support
- Nokia Symbian 3 support

Copyright Kim Greene Consulting, Inc. All rights reserved worldwide. 47

KIM GREENE
CONSULTING, INC.

Traveler Defrag Enhancement

- Requires Traveler 8.5.2.4 or 8.5.3.1
- New Notes.ini parameters
 - **NTS_DEFRAG_INTERVAL_DAYS=<# of days>**
 - **NTS_LAST_DEFRAG=<timestamp of last defrag>**
- Defrag will automatically run if NTF_LAST_DEFRAG doesn't exist or if the # days past the last run is greater than the defined interval
- Defrag a minimum of every 30 days for optimal traveler server performance

Copyright Kim Greene Consulting, Inc. All rights reserved worldwide. 48

Designer Enhancements

Copyright Kim Greene Consulting, Inc. All rights reserved worldwide.

49

KIM GREENE CONSULTING, INC.

Development / Designer Updates

The screenshot displays the IBM Lotus Domino Designer interface. The 'Window' menu is open, showing various options. Two items, 'Forms/Views' and 'XPages', are highlighted with red rectangular boxes. The 'Forms/Views' item is located under the 'Domino Designer' section, and 'XPages' is located under the 'Plug-in Development' section. The main workspace shows a project named 'Domino...' with a tree view on the left containing 'Forms' and 'Views' folders. The 'Properties' pane at the bottom shows details for the selected application, including its title, server, file name, and type.

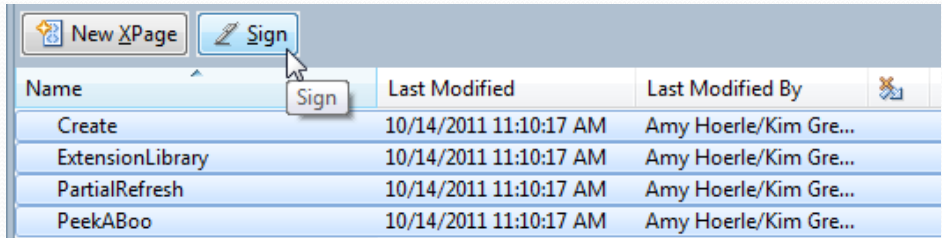

Copyright Kim Greene Consulting, Inc. All rights reserved worldwide.

50

KIM GREENE CONSULTING, INC.

Signing Databases & Elements

- Can sign individual elements or the entire database!
 - Example:
 - Sign a group of XPages without having to take the time to save each document!

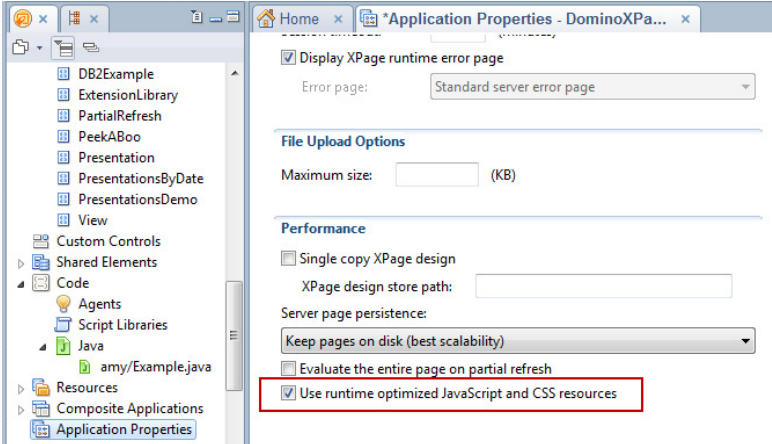

Name	Last Modified	Last Modified By

PeekABoo	10/14/2011 11:10:17 AM	Amy Hoerle/Kim Gre...

Copyright Kim Greene Consulting, Inc. All rights reserved worldwide. 51

KIM GREENE CONSULTING, INC.

Performance Improvement

- Sends one larger file to browser instead of many smaller files

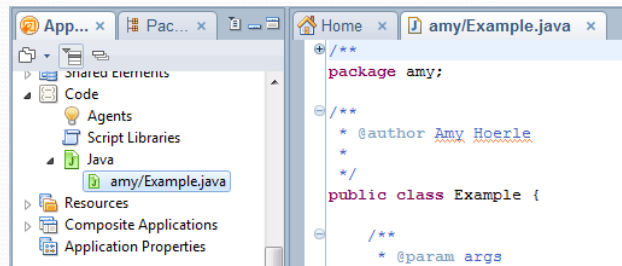

Copyright Kim Greene Consulting, Inc. All rights reserved worldwide. 52

Preloading XPages Applications

- By preloading the XPage the first user to access the XPage does not need to wait for the page to build
- Java classes can be loaded across the network for remote applications prior to the first user access
- Can be set for both clients and servers
 - XPagesPreload=1
 - XPagesPreloadDB=myServer!!myDb.nsf/myXPage.xsp,myLocalDb.nsf/test.xsp

Better JavaScript & Java Development

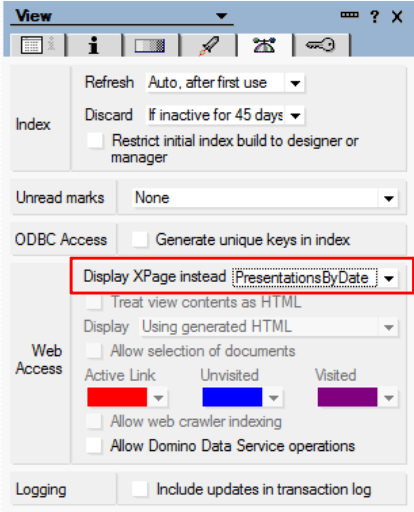

- Updated JavaScript editor
- New Java design element
 - Easier to create your own Java classes
 - Opens the standard Java editor
- Still need to use package explorer to import .jar files

KIM GREENE CONSULTING, INC.

Using an XPage in Place of a View

- Allows you to slowly replace existing applications with XPages
- Same concept as have had with forms since 8.5.0

Copyright Kim Greene Consulting, Inc. All rights reserved worldwide. 55

8.5.3 Upgrade Pack 1

Copyright Kim Greene Consulting, Inc. All rights reserved worldwide. 56

KIM GREENE
CONSULTING, INC.

Extension Library vs. Upgrade Pack

- Upgrade Pack
 - Fully supported by IBM
 - Follows traditional IBM release schedules
 - Subset of features in the XPages Extension Library
 - Obtain via Passport Advantage
- Extension Library
 - Open Source
 - Frequent release schedule
 - Obtain from <http://extlib.openntf.com>

Copyright Kim Greene Consulting, Inc. All rights reserved worldwide. 57

KIM GREENE
CONSULTING, INC.

New Templates!

- XPage updates that require the extension library or Upgrade pack
- Full online mobile support!

Domino Admin
This is a new **Main Document**.

Stacking Audio Storage

This unique audio storage solution, designed for use with our Stereo Listening Station (#962029), features two stackable units. One unit holds the CD player while the other holds ear phones, CDs, cassettes, and more. Measures Top 14"H, Bottom 7"H. 18.3"W x 12"D x 22.8"H. Assembly required.

Please allow 4-6 weeks for delivery.

Notes browser plug-in

- Notes browser plug-in for Firefox and Internet Explorer

- For More details:

<http://www.edbrill.com/edbrill/edbrill.nsf/dx/first-beta-of-notesdomino-social-edition-now-out-to-design-partners>

The screenshot shows a browser window displaying a calendar invitation. The window title is "Invitation: Team Meeting to Review iNotes CD3 Features (Mar 21 03:30 PM EDT in A1104/Littleton@ibm)". The invitation text includes: "Attendance is required for Paul Clemmons.", "Chair: Samantha Daryn", and "Show Details". A status bar indicates "You are available at this time." with a "Check Calendar" link. The meeting details are: "Time: Wed 03/21/2012 03:30PM - 04:30PM", "Location: Corporate Office", and "Room: A1104". The "Invitees" section lists "Required: Anna Regan, Paul Clemmons" and "Optional: Jeff Regan". The "Description" section lists: "Check out these new iNotes features in CD3!", "Improved Calendar Create and Edit forms", "Improved Calendar Notice forms", "New Calendar Dynamic Scheduler Widget", and "New Find available time directly from the iNotes Inbox".

Other Items

- Greater integration with IBM Connections
- Additional Mobile Support and functionality
- Mobile Device Management options
